

“VICTORY” WOODEN BLOCKS

Barton Marine launches its new “Victory” heritage range of classic, high performance wooden blocks

Combining high performance engineering and classic design, a new range of wooden blocks is being launched by Barton Marine at this year’s METS. Designed for mariners who appreciate elegance and want technical excellence, the new heritage range has been named in honour of the flagship of the British Navy - the HMS Victory.

- Manufactures from ash wood
- Natural unfinished or glossy varnished
- Bolted together for servicing or refinishing
- High Performance sheaves
- Delrin ball bearings and Torlon needle bearings
